Summary

2nd-year B.Tech student at IIIT Kota specializing in Artificial Intelligence and Data Engineering with interests in Machine Learning, Deep Learning, Generative AI, and backend development. Passionate about building real-world AI projects and solving analytical problems.

Education

B.Tech in Artificial Intelligence and Data Engineering

Indian Institute of Information Technology, Kota (IIIT-K)

2024-2028

CGPA: 7.34 / 10

Experience

Open Source Contributor — GirlScript Summer of Code (GSSoC)

Aug 2025 – Oct 2025

- Contributed to open-source projects by fixing bugs, improving features, and optimizing modules using Git and GitHub workflows.
- Collaborated with contributors through pull requests, code reviews, and issue tracking while gaining hands-on experience in real-world software development.

Projects

Travel Planning Agent

AI Agents, Python, APIs

- Developed an AI-powered travel planning assistant that generates personalized travel itineraries.
- Integrated APIs and intelligent workflows for destination recommendations and trip planning.

ResolveX

Full Stack Development, AI

- Built a problem-solving platform focused on intelligent automation and user assistance.
- Designed scalable backend logic and interactive frontend features.

Steganographic

Cybersecurity, Python, Image Processing

- Implemented a steganography-based system to securely hide and retrieve information inside images.
- Applied image processing techniques for secure data embedding and extraction.

Real-Time Emotion Detection

Computer Vision, Deep Learning, Streamlit

- Built a real-time facial emotion recognition system using deep learning and computer vision techniques.
- Created an interactive Streamlit interface for live emotion prediction and visualization.

Achievements

- Achieved **2-Star** rating on **CodeChef** and earned **5-Star** in Python on **HackerRank**.
- Solved **200+** problems on **LeetCode** with a maximum rating of **1603**.
- Secured a position among the **Top 10 Finalists** at the **Foodoscope Hackathon, IIIT Delhi**.
- Cleared the internal round of **Smart India Hackathon (SIH) 2025**.

Technical Skills

Programming Languages: Python, C++, JavaScript

Frameworks & Technologies: Flask, FastAPI, Django, React

AI/ML: Machine Learning, Deep Learning, NLP, Generative AI, Computer Vision

Tools & Platforms: Git, GitHub, Linux, VS Code

Core Concepts: Data Structures & Algorithms, DBMS, REST APIs
